

Row Gardens Allotment Group - Rippingale

Marking Out – Saturday 26 November 2005 – Allotment Field

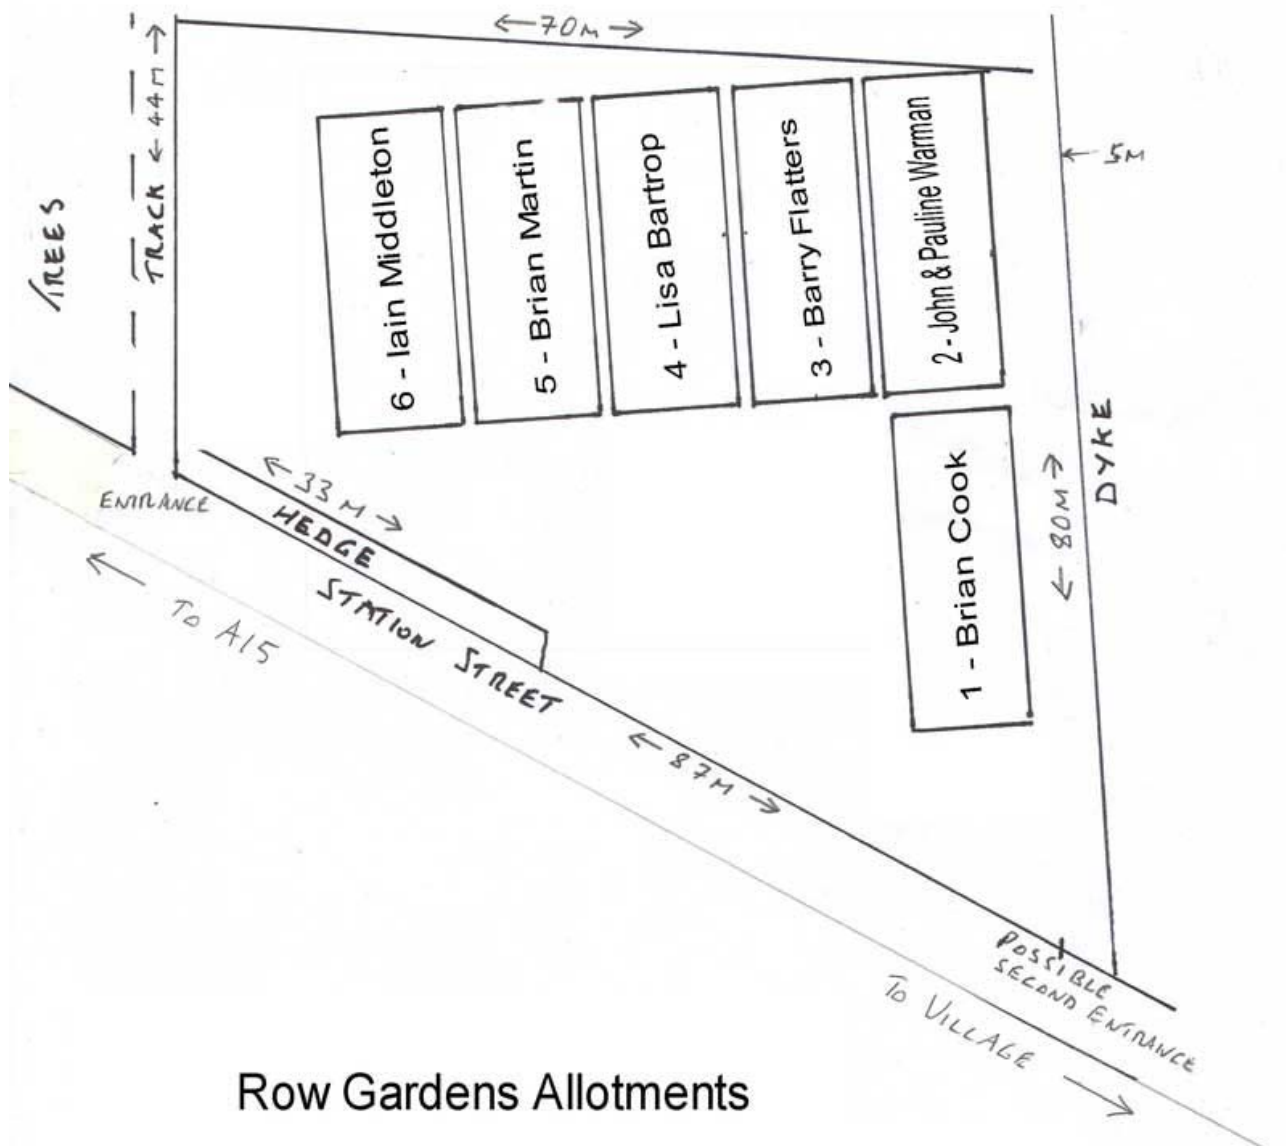

It was found impractical to get 6 plots across from the dike as the track and the dike were further out of parallel than shown on the copy of the plan in our position. This resulted in insufficient room between the bottom of the plot to the west and the hedge. It was unanimously agreed to use 5 plots across the top, and one plot below the others to the east (see revised layout).

The plots marked out were given temporary numbers and lots draw for possession. Numbers were drawn for Lisa Bartrop and Brian Cook in their absence (see revised layout).

- | | |
|---|-----------------------|
| 1 | Brian Cook |
| 2 | John & Pauline Warman |
| 3 | Barry Flatters |
| 4 | Lisa Bartrop |
| 5 | Brian Martin |
| 6 | Iain Middleton |

There is sufficient space left between the plots and the hedge to allocate a small number of half plots, or at least one full plot if required . (Interest has been received from two people to share a plot, but they were not on site).

Markers were put in each garden with the temporary plot number.
